

Key Modification in Associative Containers Exercises

Key Modification

- Write a C++14 program that changes the key of an element in an associative container
- Are there any drawbacks to your solution?

Key Modification in C++17

- Write the same program again, using C++17 features to make it as efficient as possible
- What are the advantages of this approach?

Transfer of Element Ownership

- Is it possible to transfer an element from one associative container to another?
- Write a program to illustrate your answer
